

Quick Card

Stratasync™

Assigning a Floating Software Option to the T-BERD 5800

This quick card describes how to assign a floating software option to a T-BERD 5800.

1. Open your web browser and go to: <http://stratasync.viavisolutions.com>.
2. Enter your **Username** and **Password** to Login to your StrataSync Account.

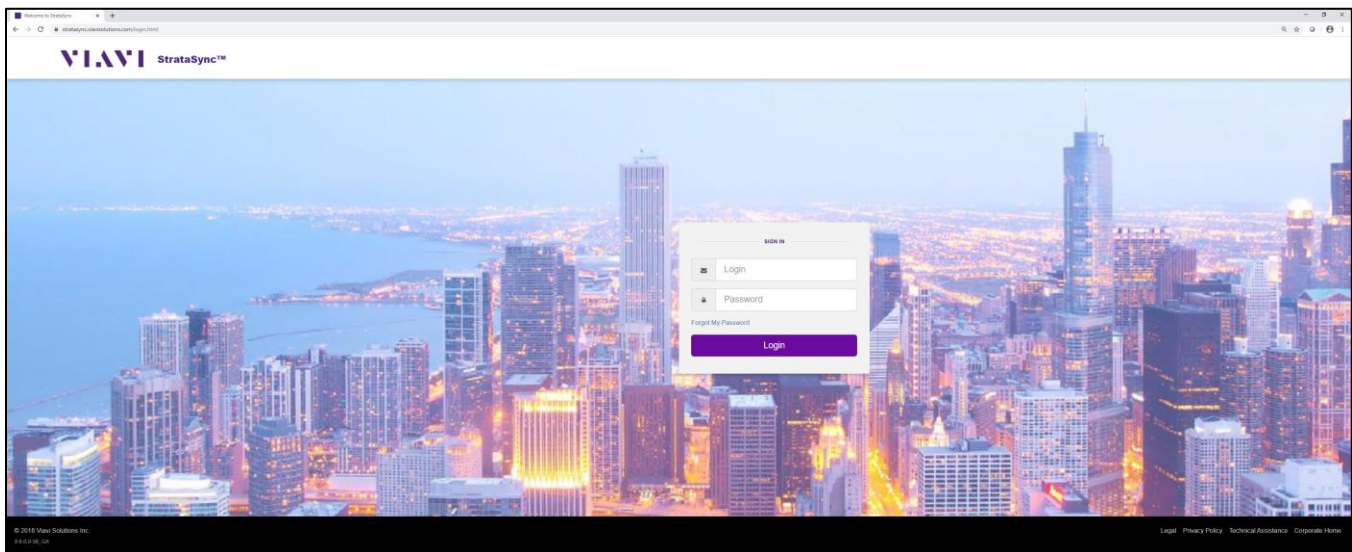

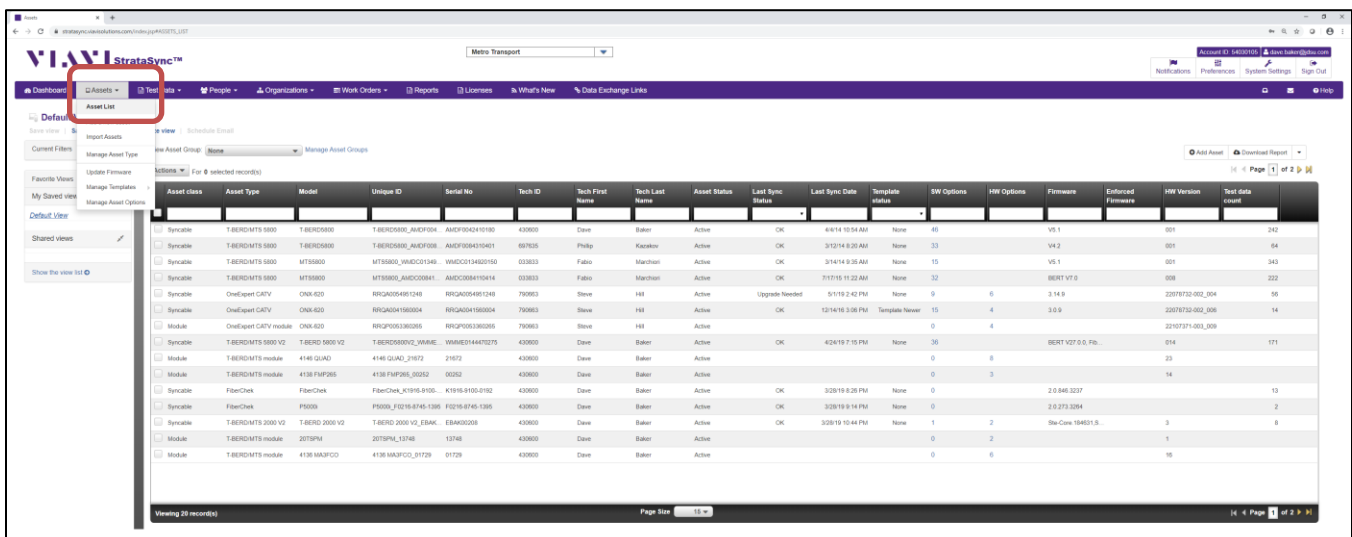

Figure 1: Stratasync Login

3. Click on the **Assets** menu and select **Asset List**.

Figure 2: Asset List

4. Filter the assets using the **Asset Type, First Name or Last Name** column.
5. Check the box on the left side of that asset that needs the Floating Option.

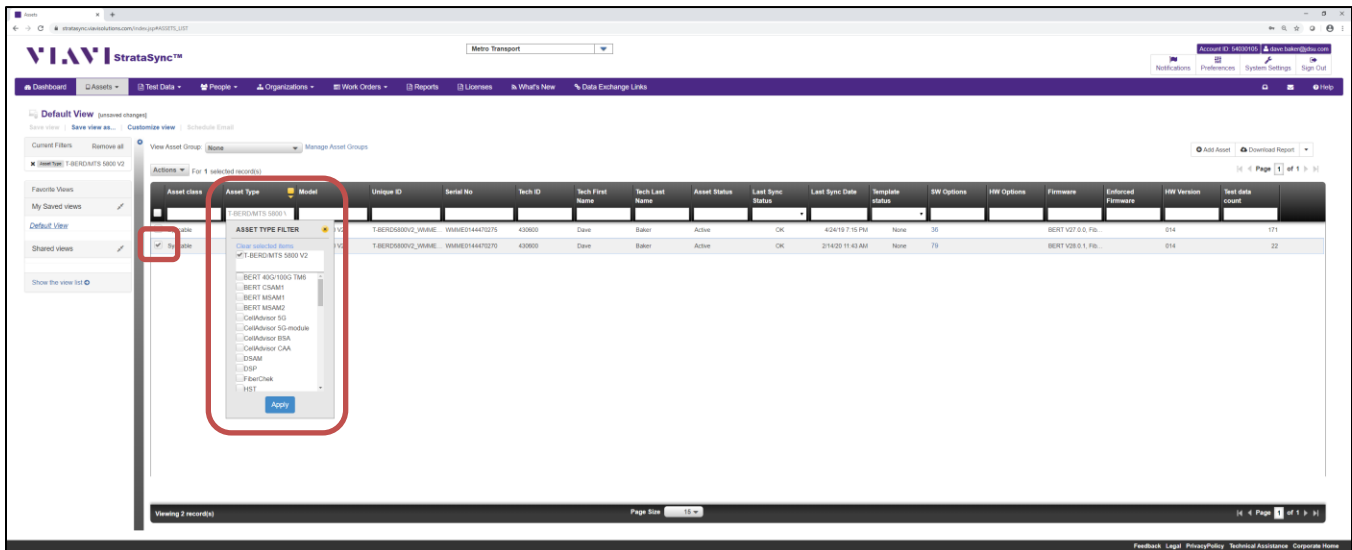

Figure 3: Asset Type Filter

6. Go to Actions > Options > Floating Options.

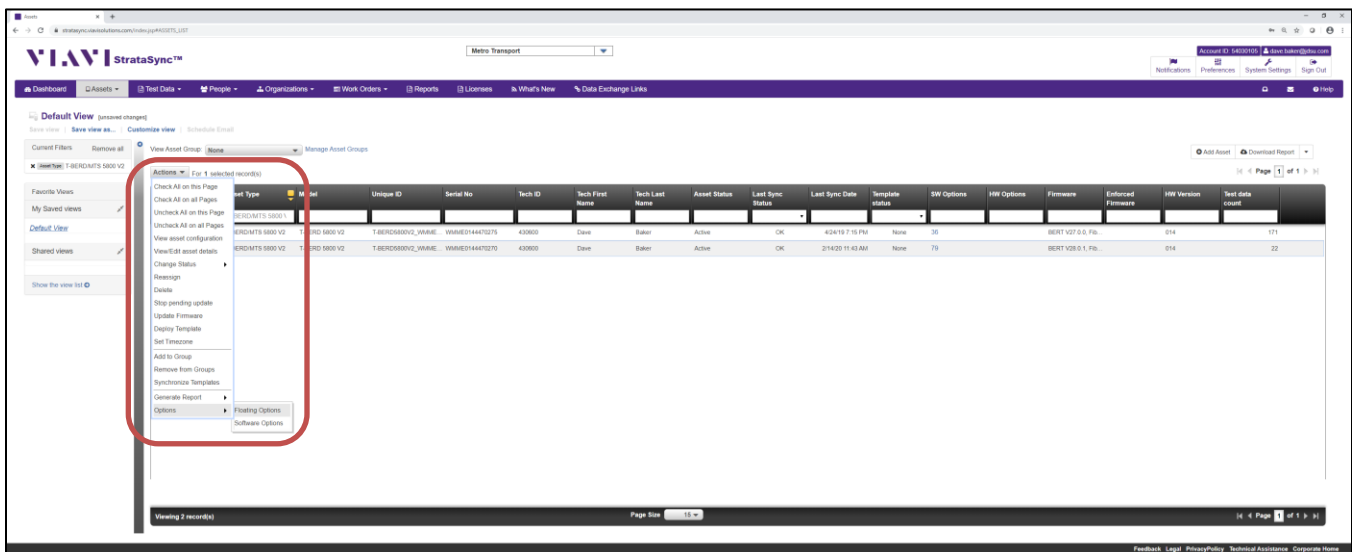

Figure 4: Actions drop down menu

7. In the Floating Options pop up window, click the **Assign** checkbox for the desired option and enter the **Duration** of the license.
8. Click Done, Next, and Deploy.

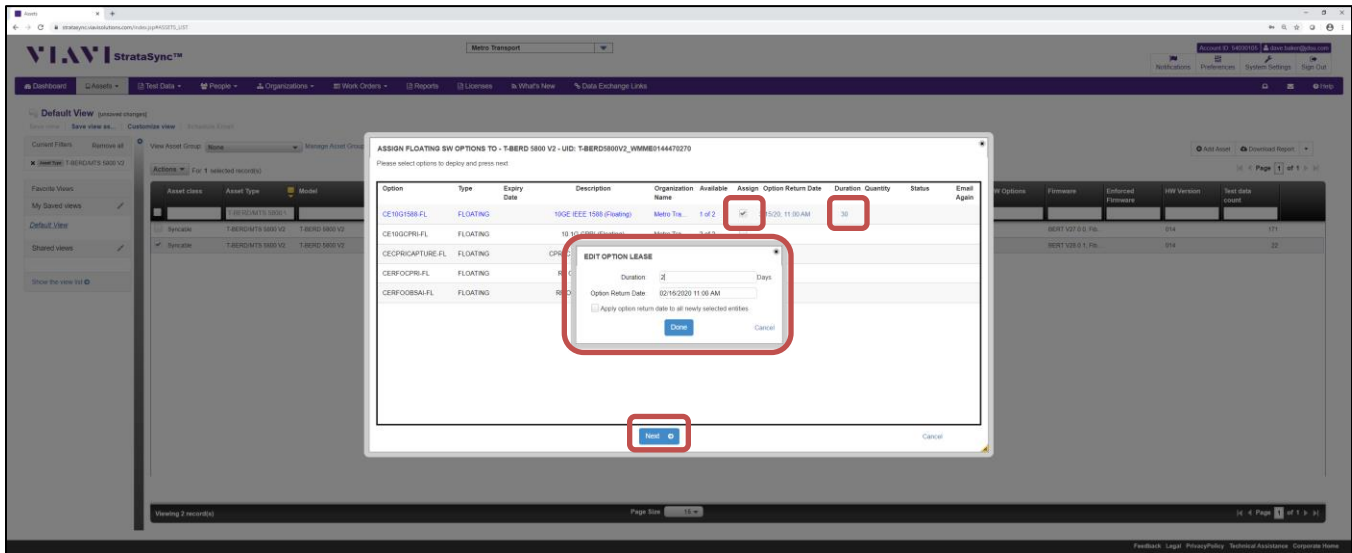

Figure 5: Assign Floating Software Option

9. Sync the T-BERD to StrataSync to download the license.
10. Reboot the T-BERD to activate the license.
